| SKU | 4143614 |
| Product name | Mixer Metos Bear RN10 VL-2, table top model |
| Dimensions | 369 × 592 × 639 mm |
| Weight | 48,000 kg |
| Capacity | 10 litres bowl |
| Technical information | 230 V, 10 A, 0,7 kW, 1NPE, 50/60 Hz |

Description

A motor of table top model Metos Bear RN10 VL-2 is powerful but very quiet. Variable speed control and possible to store up programs with different time and speed settings makes this mixer an unparalleled assistance for baking and food preparation.

The electronic control panel allows you to choose between variable speed or one of the four fixed speed programs. The control panel can be used to store up to four individual programs with different time and speed settings. The control panel also features an electronic 60-minute timer and a pause function which can be used when inspecting the contents of the bowl.

The capacity of Metos Bear RN10 VL-2 for 10 liter bowl; 5 kg bread dough 50%, 3,5 kg mashed potatoes, 2,5 liters whipped cream.

The transparent safety guard protects against dust and also prevents the

flour dusting to the room. The guard is magnetically attached without any mechanical fittings, so it can be removed and cleaned in no time. The safety guard has an integrated filling chute.

The stainless steel scraper physically scrapes the sides of the bowl and makes manual scraping unnecessary. This increases the utilisation of ingredients by providing greater volume and reducing the mixing time. The teflon scraper blade can be fitted on the scraper without the use of tools.

The motor of the Metos Bear RN10 VL-2 is fitted with a frequency converter which ensures the machine switches off in the event of overloading. There are no joins or openings on the smooth, even surfaces of the mixer therefore simple and quick to clean. The bowl and the tools (whip, beater and hook) are made of stainless steel and are therefore dishwasher safe.

- Table top model
- Bowl 10 liter
- Variable speed control
- 4 fixed speed programs
- Possible to save up to four own receipt programs
- Manually controlled lifting and lowering of bowl
- Timer 60 minutes
- Pause function
