Weight	215,000 kg
Capacity	display area 1,46m2
Technical information	230 V, 0,562 kW, 1NPE, 50 Hz
Type of the refrigerant	R134a

Description

Stylish Metos Cube II 1000 transparent glass display for full-service has a trendy design and helps the products to look attractive on every shelf, providing a fine framework for the sales

The sales area of this spacious glass display is 1.46 m2. This glass display has three tempered glass shelves equipped with a cooling fan for even cool air circulation. The top structure of the glass display is made of tempered glass which keeps the inside of the display cool and prevents it from misting. The sliding doors with ball bearings on the seller's side are easy to open.

The frameless Metos Cube II 1000 full-service display with it's

LED-lights on each shelf and the glass shelves provides a clear and unobstructed view on the display from each side. The bottom plate and the bottom panel of the display are grey (RAL 9006), available also in other RAL-colours at a separate price. The explicit design of this glass display allows it to be placed in a coffee house, bakery, transport station or a hotel lobby.

The glass display, equipped with an electronic control unit, has an automatic defrosting and evaporation of the meltwater. The temperature range is +4...+8°C (ambient temperature +25°C and relative humidity 60%). A handy pull-out machinery for quicker maintenance.
