

Grill drawer Metos Classic GR1200-GN2L-ML-GN2L

Product information

SKU	4321032S
Product name	Grill drawer Metos Classic GR1200-GN2L-ML-GN2L
Dimensions	1200 × 650 × 650 mm
Weight	92,000 kg
Technical information	220-240 V, 10A A, 0,42 kW, 1NPE, 50 Hz
Energy class	D Energy class certificate
Type of the refrigerant	R290
Quantity of refrigerant [g]	85

Description

The height of the Metos Classic GR-1200-GN2L-ML-GN2L grill drawer unit is 650 mm, which allows grilling devices to be placed on top of the furniture.

The lowered Metos Classic GR-1200-GN2L-ML-GN2L grill drawer has drawers for four GN1/1-150 containers. Over-opening telescopic slide rails make changing the GN container easy and opening and closing the drawer smooth and fast.

The table top of the grill drawer is well insulated, which prevents the heat of the grill equipment from entering the cold room. The refrigerator's temperature range is +4°C...+10°C, with the thermostat

setting +1°C...+10°C. The urethane insulation of the body is molded throughout, which keeps the cold air inside the device more efficiently, while the cold air distributes it evenly throughout the furniture. The grill drawer has electronic control with a digital temperature display. The operating panel is retracted and thus protected from collisions.

The rounded inner corners of the device made of stainless steel and the slide rails of the drawers, which can be removed without tools, make cleaning the grill drawer uncomplicated. The flat surface of the ergonomic handles is easy to keep clean. A removable water-washable filter in front of the condenser prevents the machine from getting dirty. The device has automatic defrosting and evaporation of melted water, drainage option as standard. The grill drawer has an easy-to-maintain Cassette-style refrigerator. Drawer seals can be replaced without tools. The grill drawer unit comes with brackets for attaching the power cord to the bottom of the device, which makes it easier to keep the floor clean under the device.

- device height 650 mm
- capacity 4xGN1/1-150 drawers (GN containers are not included in delivery)
- the temperature range of the refrigerator is +4°C...+10°C, with the thermostat setting +1°C...+10°C
- a smooth, isolated neutral plane
- over-opening telescopic slide rails
- electronic control
- removable, water-washable condenser filter
- drainage option as standard
- easily replaceable seals
- pull-out Cassette-style refrigerator
- digital temperature display
- molded urethane insulation
- automatic defrosting and evaporation of melted water
- stainless steel construction
- adjustment feet +20...-45 mm

DELIVERY INCLUDES:

- clips for attaching the power cord

ACCESSORIES (to be ordered separately):

- GN containers
- inner sole for the drawer
- drawer inner frame for GN containers of different sizes
