Weight	88,000 kg
Technical information	400 V, 16 kW, , 50/60 Hz

Description

The Metos Diamante D94/10VTC ceramic stove with an open stand has four 2,6 kW cooking plates. The cooking plates on the unbreakable stove are 220x220 mm, and their temperature can be adjusted from the adjustor knobs that have seven settings. It is possible to simultaneously operate two separate cooking plates, depending on the size of the cooking dish. The temperature in the cooking plates can be adjusted between 50°C and 400°C. The signal light on the control panel lights up when the temperature reaches 50°C. Furthermore, the back edge of the stove is slightly tilted, which prevents splashes from dripping behind it. The Metos Diamante 90 -restaurant series is designed for demanding use in professional kitchens and, thus, the appliances are extremely efficient, functional and stylish. The sturdy structure, straightforward use and easy cleanability enable more focus on preparing the food itself. The Diamante 90 -series appliances are available in either a

table top version or with its own stand, individually or in combination with other appliances. The appliances are laser cut, which guarantees that they can be connected to other appliances to form a clean and stylish look.
