Weight	46,000 kg
Technical information	400 V, 16 kW, 3NPE, 50/60 Hz

Description

The table top model of the Metos Diamante 90 D94/10TVTC ceramic range has four 2.6 kW cooking zones.
The unbreakable ceramic hob has 2 x Ø220 mm and 2 x 220x220 mm sized cooking zones, the temperatures of which can be regulated by the 10 position control knobs. The control panel has an indicator light, which illuminates when the hob has been switched on. Two different heating areas can be regulated within the cooking zone, independent of pot size. In addition, the rear of the range is at an incline, which prevents splashes from flowing behind the range.

Every detail of the strong, stylish and hygienic restaurant range series Metos Diamante 90 has been planned as an efficient and functioning solution, from pre-treatment to the preparation of the food itself, without forgetting the need to easily clean the range. Diamante 90

series ranges are available as a table top model as well as with its own cupboard, as single or multiple combined units, and are suitable for use in small to mid-sized to large kitchens. Laser cut range working surfaces allow for the seamless joining together of units into cleanly connected islands or lines in places of heavy use, such as large kitchens.
