Product information

SKU	4343787
Product name	Induction range Metos Diamante D92/10CITC
Dimensions	400 × 900 × 870 mm
Weight	0,010 kg

Description

The Metos Diamante D92/10CITC induction stove with a stand has two 5kW cooking plates. The cooking plates, which temperature can be adjusted from the adjustor knobs that have six settings, are separated into two large unbreakable 6 mm thick ceramic sections on the table top.

When operating the induction stove, the ceramic table top frame does not heat up and the only heat exerted comes from the cooking dish used. Moreover, heat does not collect into or around the stove, only the bottom of the pan and the food inside the pan or dish heat up. Therefore, using an induction stove is quick and safe. In addition, the cleaning of the stove is also easy, as food will not burn onto the cool surface. Furthermore, the back edge is slightly tilted, which prevents splashes from dripping behind the stove.

The Metos Diamante 90 -restaurant series is designed for demanding use in professional kitchens and, thus, the appliances are extremely efficient, functional and stylish. The sturdy structure, straightforward use and easy cleanability enable more focus on preparing the food

itself. The Diamante 90 -series appliances are available in either a table top version or with its own stand, individually or in combination with other appliances. The appliances are laser cut, which guarantees that they can be connected to other appliances to form a clean and stylish look.
