Dimensions	800 × 730 × 250 mm
Weight	98,000 kg
Technical information	400 V, 10 kW, 3NPE, 50/60 Hz

Description

The table top model of the Metos Diamante 70 D74/10TCTE single hob range has two 2.5 kW cooking zones, the temperature of which can be regulated in increments between 50...400 °C. The single hob allows for pots of different sizes to be used and simplifies the cleaning of the hob. There is a recess and a drainage opening located between the hob and the external edge, for over boiling and washing water. In addition, the rear of the range is at an incline, which prevents splashes from flowing behind the range.

Every detail of the strong, stylish and hygienic restaurant range series Metos Diamante 70 has been planned as an efficient and functioning solution, from pre-treatment to the preparation of the food itself, without forgetting the need to easily clean the range. Diamante 70 series ranges are available as a table top model as well as with its own cupboard, as single or multiple combined units, and are suitable for use in small to mid-sized to large kitchens. Laser cut range working

surfaces allow for the seamless joining together of units into cleanly connected islands or lines in places of heavy use, such as large kitchens.
