

Induction range Metos Diamante D72/10TCI table top model, 7k

Product information

SKU	4343882
Product name	Induction range Metos Diamante D72/10TCI table top model, 7k
Dimensions	400 × 730 × 270 mm
Weight	35,000 kg
Technical information	400 V, 7 kW, 3NPE, 50/60 Hz

Description

The induction wok table top model Metos Diamante 70 D72/10TCI has two ceramic Ø230 mm size 3,5 kW cooking zones. . Cooking zones - in which the temperature can be regulated via control knobs - have been marked on the 6mm thick hob made of unbreakable ceramic glass. An induction range works by only transferring inductive heat from the hob directly to the cooking vessel. Heat does not accumulate within the hob; only the bottom of the pot and the food in the pot or vessel warms up. The hob around the vessels remains cold, which makes using an induction range fast and safe. Cleaning is also easy, since food does not burn onto a cold hob. In addition, the rear of the range is at an incline, which prevents splashes from flowing behind the range.

Every detail of the strong, stylish and hygienic restaurant range series Metos Diamante 70 has been planned as an efficient and functioning

solution, from pre-treatment to the preparation of the food itself, without forgetting the need to easily clean the range. Diamante 70 series ranges are available as a table top model as well as with its own cupboard, as single or multiple combined units, and are suitable for use in small to mid-sized to large kitchens. Laser cut range working surfaces allow for the seamless joining together of units into cleanly connected islands or lines in places of heavy use, such as large kitchens.

- two Ø230 mm cooking zones (3.5 kW / cooking zone)
- table model
- large splash proof control knobs
- the exterior and feet are made from stainless steel
