Product information

SKU	4344080
Product name	Gas grill Metos Diamante D74/10GG
Dimensions	800 x 730 x 870 mm
Weight	80,000 kg

Description

The Metos Diamante D74 / 10GG gas grill with stand has grilling surface of 750 x 550 mm. The baking tray gives the food a crisp grilled surface without drying it. The water vapor from the water basin keeps the grilled food succulent. The grill has two cooking zones. The cast iron frying pan has four parts, two for meat and two for fish.

The grill works with piezo ignition. Stainless steel burners are equipped with flame arresters that prevent gas from entering the non-flammable device.

The grill is easy to keep clean as the roasting tables can be turned to the side during cleaning. In addition, the water / grease boxes are easy to empty. Splash guards on the sides and back of the device protect the environment from splashes.

The Metos Diamante 70 dining set is designed for every detail to be an effective and functional solution from preparation to cooking, without losing sight of its easy cleaning. Sturdy, stylish and hygienic Diamante 70 Series is available as a table top model or with a stand, single or multiple combination, from small to medium or large size kitchens.
