Technical information	220-240 V, 2,2 kW, 1NPE, 50/60 Hz, 70 dB CW: 3/4"

Description

Coffee machine Metos OptiMe 12 (black) is a fully automatic coffee machine specially designed for self-service use. This model comes standard with one coffee bean container and separate powder containers for milk and cocoa powder. The color of the front panel and cladding panels is black. OptiMe always grinds coffee from fresh beans. You can offer your customers a wide range of specialty coffees, always of uniform quality and made quickly. In addition to specialty coffees, the device can also provide cocoa, as well as tea water from a separate hot water tap. Clear and illustrative, 7-inch touch screen with sweep function guides the user and provides a pleasant service experience. Clear and illustrative, 7-inch touch screen with sweep function guides the user and provides a pleasant service experience.

Metos OptiMe is ideal for restaurants, hotels, educational institutions,

staff dining and all places where quality coffee is an important service element. The features of the device are best achieved in locations where the number of beverage portions produced is less than 125 per day. Thanks to its quiet running sound, compact size and easy cleaning, the Metos OptiMe is also very popular in office use. The device looks stylish on all four sides, so it is also suitable for free-standing installations. By varying the colors of the panels, the machine can be customized to suit the color scheme of the space and the desired corporate look.

With a wide range of accessories, Metos OptiMe forms a powerful package that fits into a small space. Milk powder or fresh milk can be used in specialty coffees if a separate milk cooler is connected to the machine. The four-liter milk cooler allows fresh milk to be dispensed cold or hot, as well as the addition of milk foam to the beverage portions to be prepared. A cup warmer with a capacity of 60 cups / 144 espresso cups speeds up through peak times and saves table space.

- fast infusion time, 25-30 s / cup (120 ml)
