Rotisserie grill Metos Sensup 9

Product information

SKU	4163752
Product name	Rotisserie grill Metos Sensup 9
Dimensions	1030 × 960 × 1090 mm
Weight	220,000 kg
Capacity	20-45 chickens/ hour
Technical information	400 V, 32 A, 11,3 kW, 3NPE, 50 Hz CW: 1/2"

Description

The Metos Sensup 9 is a durable and easy-to-use Rotisserie grill with a large, three-sided glass surface and chrome-plated details that stand out from the black frames. These, together with the red inner wall, create a retro-inspired impression and bring out the products for sale in an attractive way. The Sensup 9 model has nine frying baskets and can cook 30-45 chickens at a time. Shortcuts and a large display make using the device quick and easy. The Sensup series grills are pass through models with front and rear oven doors. The solution makes it possible to install them, for example, in wall recesses, where raw meat is processed in the back rooms and cooked products are taken off the grill on the store side.
Rotisserie grills are specially designed for in-store use, where cooking takes place near a service counter and the production is on display for customers. The rotisserie grill with its large glasses communicates effectively to customers the possibility of buying a crispy, freshly fried chicken. Metos Sensup grills have an automatic steam cleaning

function. The program lasts 15 minutes and also effectively removes stubborn dirt. This, along with quick-release baskets and other parts, speeds up daily cleaning routines.

- rotisserie grill with double doors
- capacity: 30-45 chickens (depending on weight)
- nine frying baskets
- delivery does not include a stand
- fast and uniform cooking with hot circulating air and infrared heating
- the baskets are quick to fill and the rotating movement helps to get a steady cooking result
- automatic switching to warm keeping mode at the end of the cooking cycle
- easy-to-use short-cut buttons and a user-friendly display
- the large glasses on the front and right side bring out the products well
- the enameled inner coating is durable and prevents dirt from sticking
- efficient lighting and red enameling of the interior bring out the products attractively
- a washing program that effectively removes dirt with hot steam
- a built-in drip pan for grease and removable inserts make it easy to clean the appliance
- the doors are also easily removable for cleaning
- effectively insulating, double glazing and tightly closing door reduce waste heat generation
- digital thermostat, temperature control range + 70°C... + 240°C
- power cord length 2.5 m
