Description

Metos Green Plus Tall 3GR is an automatic espresso machine. Its dimensioning allows dispensing into tall drinking glasses and take-away mugs (maximum height 14 cm). Thanks to three coffee groups and two milk steam taps, the capacity of the device is sufficient even at peak times. The automation monitors the functions of the appliance and starts the automatic cleaning every ten doses of coffee. Each coffee group has its own control technology, so other groups can be used while one is being cleaned. The black side panels, the shiny stainless steel that dominates the front and the white LED lighting of the buttons give the machine a stylish, cool look.

An instructive LCD display makes the device easy to use, clean and maintain. The display tells the user the following information: boiler temperature, start settings and weekday settings, number of cups made, water consumption, fault messages, scheduled maintenance, automatic

cleanings. In addition, the device has separate gauges for boiler and pump pressures.
