Description

Metos Steambox is a compact Rotisserie grill that offers a small and suitable grilling unit for a small space. The black outer shell, the glass doors on both sides and the red-distinguished inner wall bring out the products for sale in an attractive way. This model has two Steambox grills mounted on top of one another on a stand. Both units have four frying baskets and they can cook 24-32 chickens at a time. Shortcut keys and a large display make using the device quick and easy. The front and rear glass doors allow the grill to be installed, for example, in wall recesses, where raw meats are processed in the back rooms and cooked products are taken out of the grill on the store side.

Rotisserie grills are specially designed for in-store use, where cooking takes place near a service counter and the production is on display for customers. The rotisserie grill with its large glasses communicates

effectively to customers the possibility of buying a crispy, freshly fried chicken. Metos Steambox grills have an automatic steam cleaning function. The program lasts 15 minutes and also effectively removes stubborn dirt. This, along with quick-release baskets and other parts, speeds up daily cleaning routines.

- rotisserie grill with double doors, two oven tower
- the delivery includes a stand dimensioned for two stackable ovens
- capacity: 23-32 chickens (depending on weight)
- 2 x 4 frying baskets
- fast and uniform cooking with hot circulating air and infrared heating
