Description

Vegetable preparation machine with leaning and full moon feed cylinder, made to process up to 10 kg/minute or 1000 portions / day. The machine's pusher plate, knife housing and feed piston are made of aluminium and have an organic polymer coating. The organic coating allows these parts to be cleaned in a dishwasher. The pusher plate has a loop-shaped, stainless steel handle and a 57-mm diameter feeder tube. Pusher plate with system for leverage effect. Four-litre feed cylinder with 55 mm inner wall. All removable parts of the RG-250 diwash are dishwasher safe. The associated cutting tools are 185-mm in diameter, made of stainless steel/aluminium/acetate, have exchangeable knives/plates and are dishwasher safe. The motor rotates the cutting blade clockwise and directly, without intermediate belts.
