Ice cube machine Metos IM-65NE-HC-Q round ice $633 \times 506 \times 860 \mathrm{~mm}$ $53,000 \mathrm{~kg}$
26 kg/24h, bin 17 kg
220-240 V, 2,9 A, 0,39 kW, 1NPE, 50 Hz
CW: G3/4 Drain: ø R3/4
Type of the refrigerant R 290

## Description

- ball cube size $\varnothing 45 \mathrm{~mm}$

The IM-65NE-HC-Q (air cooled) is self contained ice machines. The model maintain low levels of water- and energy consumption.

- A closed water circuit offers the ultimate contamination protection, by reducing the number of points at which impurities can enter the ice making process.
- Hoshizaki ice makers are micro computer controlled, controlling the ice making process to perform at its best under varying circumstances, without having to make physical adjustments.
- A stainless steel exterior with integrated door handles provides a hygienic and high quality finish.
- Foam injected polyurethane for insulation (HFC free), helps preserve the quality and consistency of the ice produced, reducing the number of

Kitchen intelligence
production cycles.

- An easily cleanable air filter allows end users to carry out a routine cleaning schedule, extending product life expectancy and reducing the frequency and costs of maintenance call-outs.
- Removable door gaskets help prevent any heat and contamination from entering the bin as well as making your Hoshizaki product easy to clean and maintain.
