SKU	4001900
Product name	Wire shelf Metro Olympic J1848K
Dimensions	1219 × 457 × 38 mm
Weight	21,000 kg
Capacity	363 kg/ shelf

Description

- one 457 x 1219 x 40 mm sized wire shelf, max. 363 kg evenly distributed
- the shelf is protected by a layer of rust-resistant green epoxy, laid over a protective zinc substrate
- can be used in freezer rooms, dry storage, dish areas, wet areas
- shelf is a clean, safe storage solution designed for use in the foodservice, healthcare, and laboratory industries
- corrosion-resistant shelving units are NSF-approved for use in wet environments with 12-year warranty against rust and corrosion
- each unit is easy to assemble with minimal tools and can be adjusted by 2,5 cm increments on Metro SiteSelect posts
- each unit contains Microban antimicrobial protection to inhibit the growth of mold, mildew, fungi, and bacteria. On an unprotected surface, stain and odor-causing bacteria can double in number every 20 minutes. Microban protection works continuously to keep products cleaner for longer.

Delivery includes:

- one shelf with split sleeves
