

Wine cooler Metos TFW400-2F glassdoor without frame

Product information

SKU	4162271
Product name	Wine cooler Metos TFW400-2F glassdoor without frame
Dimensions	595 × 680 × 1760 mm
Weight	106,000 kg
Capacity	163 bottles 0,75
Technical information	220-240 V, 0,22 kW, 1NPE, 50 Hz, 40 dB
Net Volume	350 liters
Type of the refrigerant	R-600a
Quantity of refrigerant [g]	55

Description

The wine cabinet Metos TFW400-2F is designed for the aesthetically attractive display of wine bottles and for storing them at an appropriate temperature.

The wine cabinet Metos TFW400-2F has a net volume of 350 litres and holds 163x 0.75 litre bottles. The cabinet has two individually adjustable modes with adjustable temperatures of + 5°C to + 10°C / + 10°C to + 18°C. Temperature control and display are located inside the unit. The fans provide a constant cold air circulation throughout the cabinet. The refrigerant is environmentally friendly R600a.

The wine cabinet has 14 wooden shelves. LED illumination gives bright and even light and brings drinks to the fore. The light has a separate switch, so closing it does not turn off cabinet cooling.

The exterior and interior liner of the appliance is black-painted. The right-hand tinted glass door has a stainless steel handle. The door is interchangeable. Smooth surfaces, removable shelves and automatic defrosting make it easy to keep the device clean.

- frameless glass door, whose handedness is interchangeable
- there is no lock on the door
- capacity 163 pieces/750 ml bottles
- net volume is 350 litres
- two individually adjustable modes with adjustable temperatures of + 5°C to + 10°C / + 10°C to + 18°C
