### Description

Metos Green OE-80-72-E is a recessed, self-serve chilled display designed for use under demanding conditions, with a width of 800 mm and height of 720 mm. The simple squared shape of the chilled display highlights the products being sold.

The display's tempered glass side panels, the glass shelf and the bright LED lighting for shelves and the cold tub make products being sold highly visible. The self-service display is open on the customer side, with hinged glass doors on the seller's side. A 215 mm high cooled tub with Gastronorm dimensioning.

In addition, the display is equipped with an auto-defrost function, the melting water from which is directed to the grey water system. For those

installation locations where it is not possible to connect the display to the grey water system, an condensate evaporation tank is included as an accessory.

The display is equipped with air cooled chilling, digital temperature control and a fan speed regulator. Air temperature range is +2...+4 °C. The glass side panels and glass shelf is made from tempered glass. The substructure is made from stainless steel and insulation is polyurethane.
