

## Modular Ice maker Metos Maracuja M145 A, ice cube M-size 10g

### Product information

---

SKU	4173120
Product name	Modular Ice maker Metos Maracuja M145 A, ice cube M-size 10g
Dimensions	560 × 620 × 575 mm
Weight	53,000 kg
Capacity	production 145 kg / 24 h
Technical information	220-240 V, 10 A, 0,650 kW, 1NPE, 50 Hz CW: 3/4" Drain: ø Ø 20
Type of the refrigerant	R290
Quantity of refrigerant [g]	120
Cooling capacity [W]	1967

### Description

The Metos Icematic Maracuja-series ice makers are efficient, heavy-duty ice machines with a separate ice tank as an accessory. Optimal ice storage can be guaranteed, as ice cubes fall directly into a separate ice tank when they are ready. This is why the M-series' ice machines are perfect for nightclubs, large restaurants, fast food restaurants, hotels, and movie theaters.

Special attention has been paid to the hygiene and ease of use in the

design of the machines. The machines have an automatic washing system that ensures easy cleaning. The internal cleaning and maintenance of the machine is also effortless due to easy access. The frame of the machine is made of wear-resistant and easy-to-clean stainless steel. The controls of the machines work electronically, which allows the detection of malfunctions and can be used to determine the efficiency of the machine.

- air condensation
- ice cube size 10 g, 22x22x24 mm
- separate ice container
- stainless steel body
- automatic washing system
- environmentally friendly R290 as refrigerant
- including Bluetooth/WiFi board

**DELIVERY INCLUDES:**

- pressure water hose
- drain hose

**FACTORY OPTIONS (to be ordered with the machine):**

- ozone programmable sanitation cycle
- Rainbow technology evaporator treatment
- IOT cloud connection
- Storage bin ice level adjustment

The capacity values have been calculated under conditions where the room temperature is 10°C and the water temperature is 10°C. If the water used is warmer, the output of the machine will decrease.
