

Espresso machine Metos Classe 5 USB 3GR Tall C

Product information

SKU	4157741
Product name	Espresso machine Metos Classe 5 USB 3GR Tall C
Dimensions	1011 × 539 × 520 mm
Weight	85,000 kg
Technical information	400 V, 10 A, 6,64 kW, 3NPE, 50/60 Hz CW: 3/8" Drain: ø 14 mm

Description

Metos Classe 5 is an automatic espresso machine. Its dimensioning allows dispensing into tall drinking glasses and take-away mugs (maximum height 14.5 cm). The espresso machine with three coffee groups, two steam taps and a hot water tap is 1011 mm wide. The device is well suited for use in, for example, a café, restaurant or hotel,

Clear buttons and built-in automation make it easy to use. Thanks to the ingenious C-lever steaming function, the frothing of the milk can be carried out quickly and accurately exactly according to the wishes of the barista. Turning the steam lever up 25 degrees provides a continuous steam supply. By turning down, the user can influence the flow rate. Steam flow stops when the grip on the lever is released. Black side panels, shiny stainless steel that dominates the front and clearly distinguishable steam tap levers give the machine a stylish look.

Patented Steady Brew (SB) technology is the evolution of the traditional thermosiphon system and introduces a set of innovative features designed to improve the performance of all single-boiler espresso machines. By keeping the water temperature stable during extraction, Steady Brew guarantees excellent thermal stability, reliability and maximum repeatability, both during busy periods and in low usage conditions.

- three filter holders, two steam taps and a hot water tap
- possibility to use tall (<14.5 cm) drinking glasses and regular cups
- C-lever steaming function to speed up milk frothing
- boiler size 16 liters
- separate gauges for boiler and pump pressures.
- USB port
- black ABS plastic side panels protect the machine from knocks
- front panel in mirror-polished stainless steel
- clear and easy to use keyboard
- independent filter holders
- to facilitate maintenance, the technical components are positioned so that they can be exposed by removing the panels from the front of the device

DELIVERY INCLUDES:

- three ergonomically shaped filter holders, two for one cup and one for two cups
- a pull-out dosing level that allows the low cups to be brought to the correct dosing height

ACCESSORIES (to be ordered separately):
