

High Speed Combi oven Metos HSO 400

Product information

SKU	4571382
Product name	High Speed Combi oven Metos HSO 400
Dimensions	467 × 510/609 × 630 mm
Weight	61,000 kg
Capacity	17,9 Lt
Technical information	400 V, 26 A, 6 kW, 3NPE, 50 Hz Drain: ø 40 mm

Description

The Metos HSO 400 Turbo boosted high speed oven has an operating mode that simultaneously uses convection, microwave and impingement modes, with temperatures from 100°C to 300°C. In Combi Wave mode, the oven can be used as a convection oven with temperatures from 30°C to 300°C, as a microwave oven with power up to 2000W or with a combination of the two cooking methods to achieve results that always exceed expectations.
