Weight	14,330 kg
Capacity	600 kg

Description

Extension shelving Metos Norm12 pack, including four louvred shelves and one upright.
The uprights are made of special 25x25 mm rectangular tubes, connected and stabilised by firmly press-fitted 40x7 mm transvere cross bar.
Plastic top covering caps and height-adjustable screw feet to compensate up to 25 mm on uneven floors as a hygienic closure of the upright. The shelves made from removable polystyrene segments are mounted on aluminium support bars. Upright has integrated lugs with 150 mm spacing for easily hooking of the shelf support.

The unit’s plastic segments are very resistant to fluids with a high salt content, (e.g. for storing salt-water fish) and are dishwasher-safe.

Modular shelving system made of natural anodised aluminium in a hygienic design as per DIN 18868-2, suitable for continuous use at temperatures as low as -30°C, for installation in a straight line or as a corner unit with corner hooks, extendible to any length.
