

## Espresso machine Metos Classe 5 USB 1GR Tall C

### Product information

---

SKU	4157715
Product name	Espresso machine Metos Classe 5 USB 1GR Tall C
Dimensions	410 × 540 × 520 mm
Weight	35,000 kg
Technical information	220-240 V, 10 A, 1,6 kW, 1NPE, 50/60 Hz CW: G3/8

### Description

Metos Classe 5 is an automatic espresso machine. Its dimensioning allows dispensing into tall drinking glasses and take-away mugs (maximum height 14.5 cm). In the design of the The espresso machine with one coffee group, once steam tap and a hot water tap is only 410 mm wide. The device is well suited for use in, for example, a small café, restaurant or hotel.

Clear buttons and built-in automation make it easy to use. Thanks to the ingenious C-lever steaming function, the frothing of the milk can be carried out quickly and accurately exactly according to the wishes of the barista. Turning the steam lever up 25 degrees provides a continuous steam supply. By turning down, the user can influence the flow rate. Steam flow stops when the grip on the lever is released. Black side panels, shiny stainless steel that dominates the front and clearly distinguishable steam tap levers give the machine a stylish look.

- one filter holder, one steam tap and a hot water tap
- possibility to use tall (<14.5 cm) drinking glasses and regular cups
- C-lever steaming function to speed up milk frothing
- boiler size 4 liters
- gauge for pump pressures
- USB port
- black ABS plastic side panels protect the machine from knocks
- front panel in mirror-polished stainless steel
- clear and easy to use keyboard
- independent filter holder
- to facilitate maintenance, the technical components are positioned so that they can be exposed by removing the panels from the front of the device
