

Deep freezer Metos Start MDF50R

Product information

SKU	4247522
Product name	Deep freezer Metos Start MDF50R
Dimensions	600 × 700 × 2080 mm
Weight	110,000 kg
Capacity	30-42 kg / 12h (-0C -> -18C)
Technical information	230 V, 10 A, 1,26 kW, 1NPE, 50 Hz
Type of the refrigerant	R452A
Quantity of refrigerant [g]	700

Description

Deep freezer Metos Start MDF50R is intended for fast thawing of hot food. Refrigerated foods can be transferred directly to GN containers for cabinet shelving.

The freezing cabinet Metos Start MDF50R cooling capacity is 5xGN1/1 dishes and cools 30-42 kg/ 12h, +0...-18C (capacity is a guideline and cannot be achieved with all food items or under all circumstances). The machine automatically transfers to storage space after the end of the cooling process and then cabinet can also be used as a normal freezer (-18C...-22C).

The freezing cabinet has five GN1 / 1-rated shelving lead pairs. Leads are easily detached for transfer and cleaning of the cabinet, setting

distance in 50 mm. Shelves are available as an accessory.

It is easy to clean the unit with its stainless steel construction, rounded inner pockets and easy-to-detach leads. In addition, the unit is equipped with automatic defrosting and evaporation of mildew, as well as the possibility of manually starting defrosting.

The device has a right-hand door with a sealant that is easily replaceable. The lockable, self-closing door remains open when opened at a 90° angle. The refrigerator cabinet is located at the top of the cabinet. The electronic, membrane-protected thermostat features a large, clear and easy-to-use display. The display shows alarm information about possible setpoint temperature and overrun.

- right-hand lockable door
- 5 shelf lead pairs for GN1/1-containers
- leads are easily detached
- automatic defrosting and evaporation of drain water
- stainless steel inner and outer lining
- 75 mm CFC- and HCFC-polyurethane insulation
- rounded inner corners
- stainless steel adjustable feet
- EVJ control
- air-condensed
- refrigerant R290

ACCESSORIES (ordered separately):

- additional lead pair
- shelves
- foot pedal
