Product name	Basic shelving Metos Norm5 1200*500 with louvred shelves
Dimensions	1200 × 500 × 1800 mm
Weight	26,600 kg
Capacity	1200 kg

Description

Basic shelving Metos Norm5 pack including four louvred shelves, two uprights and one cross brace.

The uprights are made of special 25x25 mm rectangular tubes, connected and stabilised by firmly press-fitted 40x7 mm transverse bars. Plastic top covering caps and height-adjustable screw feet to compensate up to 25 mm on uneven floors as a hygienic closure of the upright. The shelves, made from stainless steel, are mounted on uprights with integrated lugs with 150 mm spacing for easily hooking of the shelf.

The Metos Norm 5 stainless steel shelving unit features extensive equipment options, making them suitable for a wide range of scenarios and enabling them to be adapted to a large array of spatial and temperature requirements.

Modular shelving system made of high-quality stainless steel 1.4301 in a hygienic design as per DIN 18868-2, suitable for continuous use at -40°C to +60°C, for installation in a straight line or as a corner unit with corner hooks, can be extended to any length.

- four louvred shelves made of stainless steel
- two aluminium uprights
- one cross brace
- adjustable shelf height every 150 mm
- capacity 1200 kg between two aluminium uprights
- clean with tap water and degreasing liquid cleaner or stainless steel cleaner. Clean with brushes made of natural, synthetic or stainless steel bristles or stainless steel wool. Remove all residues of cleaning agents by subsequently rinsing thoroughly with tap water.
