Description

Extension shelving Metos Norm5 pack, including four slatted shelves and one upright.
The uprights are made of special 25x25 mm rectangular tubes, connected and stabilised by firmly press-fitted 40x7 mm transvere cross bar.
Plastic top covering caps and height-adjustable screw feet to compensate up to 25 mm on uneven floors as a hygienic closure of the upright.
Upright has integrated lugs with 150 mm spacing for easily hooking of the removable shelves.

The Metos Norm 5 stainless steel shelving unit features extensive equipment options, making them suitable for a wide range of scenarios and enabling them to be adapted to a large array of spatial and temperature requirements.

Modular shelving system made of high-quality stainless steel 1.4301 in a hygienic design as per DIN 18868-2, suitable for continuous use at -40°C to +60°C, for installation in a straight line or as a corner unit with corner hooks, can be extended to any length.

- four louvred shelves made of stainless steel
- one aluminium uprights
- adjustable shelf height every 150 mm
- capacity 1200 kg between two aluminium uprights
- clean with tap water and degreasing liquid cleaner or stainless steel cleaner. Clean with brushes made of natural, synthetic or stainless steel bristles or stainless steel wool.
