Description

The Metos CBS-1231 Plus coffee brewer is a perfect hot beverage solution for low- to medium-volume self-service environments such as convenience stores, cafeterias, specialty coffee shops, or office coffee service. Designed specifically for smaller batch brewing. Plug and play operation, batch buttons are pre-programmed at the factory. If desired the USB port can be used to upload and download recipes.

Cascading spray dome is a patented design which provides even saturation of the coffee bed for maximum extraction. Lime resistant design makes for less service calls.

ECO mode reduces tank temperature during periods of non-operation to cut down on electricity usage.

Plastic brew basket with a capacity of 227 grams and advanced design to provide a deeper bed depth and superior thermal insulation for better extraction.
