

Juice squeezer automat Metos Zummo Z14 Inox market

Product information

SKU	4117161
Product name	Juice squeezer automat Metos Zummo Z14 Inox market
Dimensions	500 × 600 × 781/1717 mm
Weight	101,500 kg
Capacity	16 fruits / minute
Technical information	230 V, 6 A, 0,275 kW, 1N, 50 Hz, 69 dB

Description

Metos Zummo Z14 inox market is a fresh juice machine with its own stand. Thanks to its easy functions and the structure dimensioned for bottle dispensing, the device is ideal for self-service use in shops or for example traffic stations. The machine squeezes 16 fruits per minute. A large 16 kg fruit container and automatic filtration allow the juice station to operate for long periods of time without immediate intervention by staff. The feeder can be adjusted for either 55-70 mm or 70-90 mm fruit.

The unique EVS (Efficient Vertical System) squeezing system moves the fruit from the basket to the cup always vertically and also cuts the fruit in the same position. This way, the peel of the fruit never comes into contact with the juice and the bitter taste of the peel and any preservative residues are not transferred to the juice. The result is a clean, fresh fruit flavor and minimal waste. The automatic filtration

works so that the conveyor belt takes the seeds and larger parts of the fruit flesh directly to the waste container. Removable parts are machine washable except for the transparent front cover.

- a model for self-service use dimensioned for bottle dispensing
- bottle holder for easy filling
- stainless steel stand with wheels
- collecting waste peels in a waste bag in the stand
- push buttons and user guide screen
- parts easily removable and machine washable
