

Juice squeezer automat Metos Zummo Z40 market

Product information

SKU	4117164
Product name	Juice squeezer automat Metos Zummo Z40 market
Dimensions	598/800 × 545/600 × 980/1762 mm
Weight	125,000 kg
Capacity	40 fruits / minute
Technical information	230 V, 10 A, 0,41 kW, 1NPE, 50 Hz, 69 dB

Description

The Metos Zummo Z40 Market is a fresh juice vending machine designed for in-store use with its own stand. This device, which is dimensioned for bottle dispensing, is really easy to use and is ideal for self-service use. A large 20 kg fruit container, two 60 liter waste bins and automatic filtration allow the juice station to operate for long periods of time without immediate intervention by staff. Automatic filtration works so that the conveyor belt takes the seeds and larger parts of the fruit flesh directly to the waste container. The unique EVS (Efficient Vertical System) squeezing system moves the fruit from the basket to the cup always vertically and also cuts the fruit in the same position. This way, the peel of the fruit never comes into contact with the juice and the bitter taste of the peel and any preservative residues are not transferred to the juice. The result is a clean, fresh fruit flavor and minimal waste.

The large fruit bowl on top of the device acts as an effective advertisement that is visible from afar telling about the possibility of buying a bottle of freshly squeezed fresh juice. By changing the position of the fruit classifier, the machine can be adjusted to use oranges with a diameter of either 53-76 mm or 64-88 mm. Optional parts allow the machine to be adjusted for fruits larger or smaller than oranges. Thanks to the flat surfaces of the appliance and the stainless-steel stand, the juice station is easy to clean and it always keeps a clean and attractive look. Removable parts are machine washable except for the transparent front cover.

- a model for self-service use dimensioned for bottle dispensing
- bottle holder for easy filling
- automatic start/stop function
- counter
- parts easily removable and machine washable
- orange diameter 53-76 mm
- the capacity of the feed basket is about 20 kg of oranges
- capacity 40 fruits per minute
- large waste containers for peels 2 x 60 l in the lower cabinet
- pedestal cabinet with wheels
- stainless steel construction
- safety switches
- drip tray
