

Juice squeezer Metos Zummo Z06

Product information

SKU	4117159
Product name	Juice squeezer Metos Zummo Z06
Dimensions	548 × 431 × 811 mm
Weight	52,500 kg
Capacity	10 oranges/minute
Technical information	230 V, 0,275 kW, 1NPE, 50 Hz, 69 dB

Description

The Metos Zummo Z06 is a compact fresh juice machine that squeezes 10 fruits per minute. The hopper and basket can hold about 1.5 kg of oranges. The machine can be adjusted for either 45-60 mm, 55-70 mm or 63-75 mm fruit.

The unique EVS (Efficient Vertical System) squeezing system moves the fruit from the basket to the cup always vertically and also cuts the fruit in the same position. This way, the peel of the fruit never comes into contact with the juice and the bitter taste of the peel and any preservative residues are not transferred to the juice. The result is a clean, fresh fruit flavor and minimal waste. The automatic filtration works so that the conveyor belt takes the seeds and larger parts of the fruit flesh directly to the waste container. Removable parts are machine washable except for the transparent front cover.

- push buttons and user guide screen
- table top installation

- parts easily removable and machine washable
- suitable for 5 different citrus fruits with a diameter of 55-70 mm or 70-90 mm, quick selection of size by changing the position of the classifier
- the capacity of the hopper and basket is about 1.5 kg of oranges
- capacity 10 fruits per minute
- waste containers for peels 2×11 l
- automatic filtering
- stainless steel frame construction
- outer shell in black plastic
- safety switches
- drip tray
